Relevant Coursework: Software Develoment, Frontend Development, Markup languages, UI Designs, Responsive Web Development

Intermediate , Board of School Education Haryana   2020 / 9.6 CGPA

SKILLS

Languages	HTML, CSS, JavaScript/ECMAScript
Frontend	React.js, Bootstrap, Tailwind, ReactRouter, Cross Browser Compatibility
Tools	VSCode, Figma, NPM, Git, Github

EXPERIENCE

Frontend Development Intern   Nov 2022 - June 2023
iNeuron.ai   *Bangalore, India*

- Learned the development of frontend applications using **React JS**. Utilized components, state management, and life cycle methods to create interactive and responsive user interfaces.
- Ensured seamless user experiences across different devices and screen sizes by implementing responsive web design principles and utilizing **CSS media queries**.

PROJECTS

TextUtils: [Link Code]

Text Utils is a text formatting utility built for writers and urgent text formatting works. Used **HTML, Bootstrap and React JS** for managing the different states of the website. App has hosted on **Vercel**

NewsNerd: [Link Code]

Your daily news hub, built with **HTML, Bootstrap and React JS** and powered by the News API. Explore tech, sports, politics, and more news categories. Stay informed effortlessly at NewsNerd.

EXTRA-CURRICULAR ACTIVITIES

- Actively write technical blogs on tech topics like HTML, CSS, Javascript, AI and programming concepts. Read by over 500+ programmers and helping them in making the concept clear.
- Participated in MLH (Major League Hacking) Hackathon 5.0. Built a frontend note taking application and presented it to the judges. Won the tag of "MLH Hackathon Season 2023"

LEADERSHIP

- Campus Tech Leader at iNeuron.ai for sharing the knowledge of JavasScript, React JS and Software Engineering. Taught 2000+ college students about the frontend development and the value of effective UI in the tech world.
